

NDUKWU WISDOM IZUCHUKWU

Frontend Developer | Full-Stack Developer

GitHub: Wizzy019 | kingwizzyndukwu@gmail.com | +2347045011184

PROFESSIONAL SUMMARY

Frontend Developer with experience building and deploying production-style web applications and backend APIs. Skilled in React, TypeScript, and modern UI development, with hands-on experience implementing authentication, dashboards, database integration, and role-based systems using Supabase, FastAPI, and PostgreSQL.

Expanding toward full-stack software engineering.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Responsive Design, API Integration

Backend: Python, FastAPI, REST APIs

Database & Backend Services: PostgreSQL, SQL, Supabase (Auth, Database)

Tools & Deployment: Git, GitHub, Cursor, VS Code, Vercel, Render, Chrome DevTools

TECHNICAL PROJECTS

WORKCONNECT APP

<http://workconnect-app.vercel.app>

React, Tailwind CSS, Supabase, Vercel

- Built and deployed a role-based service marketplace connecting clients and workers using React and Supabase.
- Designed and implemented separate client and worker dashboards to support tailored workflows and user experiences.
- Developed authentication and user session management using Supabase Auth.
- Built worker discovery and search functionality to improve client navigation and service matching.
- Integrated Supabase database services for real-time data storage and application state persistence.

SINGLE-STORE-API

<https://single-store-api.onrender.com>

Python, FastAPI, PostgreSQL, Render

- Developed and deployed a RESTful backend API for single-store management using FastAPI and PostgreSQL.
- Built authentication and role-based access control (RBAC) workflows for users and administrators.
- Designed and implemented admin endpoints for product management, admin registration, and customer order monitoring.

- Developed user-facing endpoints for product browsing and personal order history tracking.
- Structured backend architecture and database integration to support scalable API workflows.

EDUCATION

Nnamdi Azikiwe University

B.Sc. Computer Science (In Progress)

Expected Graduation: 2027
